

Acquirer KYB (Know Your Business) Obligations

Acquirers processing transactions on the Mastercard network are required to perform Know Your Business (KYB) due diligence on merchants before onboarding and on a recurring basis thereafter. Credo, as an acquirer, must collect and verify a minimum set of documents for each merchant to establish business legitimacy, confirm beneficial ownership, and satisfy anti-money laundering screening requirements.

When this policy applies

This policy applies to all new merchant onboarding and to all periodic re-verification reviews. Merchants that fail to supply required documentation within the stipulated period must be suspended from processing until compliance is restored.

Required actions

1. Collect all required KYB documents at onboarding prior to approval.
2. Conduct AML screening against applicable watchlists before approval.
3. Verify business licenses for regulated merchant categories.
4. Schedule a full re-verification review at least once every 365 days.
5. Document all verification outcomes and retain records for audit purposes.
