Watch list — 3 jurisdictions that look like France did 12 months ago

Pattern-based projection, not prediction. Confidence: medium.

Brazil

[View in a dashboard →](#)

Current footprint: Operating

SECAP scrutiny of fixed-odds platforms has intensified through Q1-Q2 2026. Pattern resembles French regulatory escalation 12 months out: bulletins, then guidance, then perimeter clarification. Three driving events in window.

RECOMMENDED ACTIONS

- Engage local counsel on SECAP perimeter interpretation
- Prepare geofencing playbook for São Paulo/Rio routing
- Monitor monthly; escalate if guidance $\geq$ 'enforcement' tier emerges

Current footprint: Closed

MAS guidance cadence on digital payment tokens has spilled into event-contract platforms via remote-gaming references. The 2025 reviews cite cross-border solicitation language consistent with the French AMF posture 14 months pre-action.

RECOMMENDED ACTIONS

- Audit MAS RNC notifications for the past 90 days
- Confirm whether the platform's payment rails meet DPT Act perimeter
- Bring posture review to next board meeting

Current footprint: Operating

AUSTRAC + ACMA combined posture has tightened through 2026 Q1. Carver tagged 480 AU records, with a clear uptick in advisory and guidance tiers Q4 2025 onward — the same composition curve France showed.

RECOMMENDED ACTIONS

- Map AUSTRAC reporting-entity obligations for event-contract products
- Review ACMA enforcement bulletins quarterly
